

AMENDMENTS TO THE SPECIFICATION:

Please replace paragraph [0022] with the following amended paragraph:

Figure 2 is an isometric view of a portable power module 200 in accordance with an embodiment of the invention. In one aspect of this embodiment, the portable power module 200 includes a container 202 defining a first interior portion, or motor compartment 205, and a second interior portion, or radiator compartment 215. In the embodiment illustrated in Figure 2, the motor compartment 205 and the radiator compartment 215 are arranged in tandem with the motor compartment disposed toward a first ~~end direction 225~~ (e.g., forwardly) in a first direction indicated by arrow 225, and the radiator compartment 215 disposed toward a second ~~opposite end direction 226~~ (e.g., rearwardly), in a second direction indicated by arrow 226. In other embodiments, other arrangements are possible. For example, in one such other embodiment the motor compartment 205 can be disposed rearwardly and the radiator compartment 215 can be disposed forwardly.
